DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 8 and 14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- a. IN claim 8, line 3, "motors" lacks proper antecedent basis because only one motor was mentioned before.
- b. In claim 14, the preamble of the claim is improper because the dependency should be stated before the claimed limitations because so as to not be recited as a limitation. The according to claim 1 should be moved into the preamble.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 8-14 are rejected under 35 U.S.C. 102(e) as being anticipated by Plomtextu et al (6779228).

Art Unit: 3723

c. Plomteux et al discloses the claimed invention as recited in claims 8-14.

Plomteux et al discloses a central unit of vacuum having an inlet port (A), an outlet port (D), motor and fans (abstract), and a dust container and cover (3&5).

Allowable Subject Matter

4. Claims 1-7 are allowed.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The 892 form discloses prior art being made of record.
